### **About Governors for Schools**

We're a national education charity with the ambition of making sure every school has excellent governance which drives improved outcomes for all children and young people. Since 1999, we've been connecting skilled and committed volunteers with schools and academies in England, in need of governors. By finding and supporting a diverse and talented network of governors, we help to drive systematic change in how schools are run. We've placed over 10,000 governors in England in the last 5 years and we've got ambitious plans to develop our services, expand our work with key partners, and support more schools with excellent governance. Significantly, this now includes our plans to support schools and volunteers in Wales.

Governors for Schools is committed to employing a diverse workforce. Diverse organisations are more effective and we value different experiences and backgrounds. We offer flexible working and welcome applications from people with experience outside the charity and education sector, who can demonstrate a passion for improving education.
